MIXED OFFICES COMMERCIAL UNION ASSURANCE COMPANY. FIRE—LIFE—MARINE.

CAPITAL, £2,500,000.

LIFE DEPARTMENT.

THE advantage of effecting a Life Policy in a Mixed Office, that is to say, in an Office which transacts Fire business, or Fire and Marine business, in addition to the business of Life Assurance, as compared with a purely Life Office, is so obvious that it hardly requires explanation. In a purely Life Office, the Life Fund is the only available Fund besides the paid-up Capital, and has to bear the whole of the expenses; while in a Mixed Office the Assured are to a certain extent protected by the General Fund, and the Life expenses are partly provided for by the other departments, while the Life Fund, accumulated out of Life Premiums, is specially set apart for the protection of Life Policy and Annuity holders, in terms of the Life Assurance Companies' Act of 1870 (33 and 34 Vic., ch. 61) as follows:—

LIFE FUNDS SEPARATE. "In the case of a Company established after the passing of this Act, transacting other business besides that of Life Assurance, a separate account shall be kept of all receipts in respect of the Life Assurance and Annuity contracts of the Company, and the said receipts shall be carried to and form a separate fund, to be called the Life Assurance Fund of the Company, and such fund shall be as absolutely the security of the Life Policy and Annuity holders as though it belong to a Company carrying on no other business than that of Life Assurance, and shall not be liable for any contracts of the Company for which it would not have been liable had the business of the Company been only that of Life Assurance; and in respect to all existing Companies, the exemption of the Life Assurance Fund from liability for other obligations than to its Life Policy-holders, shall have reference only to the contracts entered into after the passing of this Act, unless, by the constitution of the Company, such exemption already exists: Provided always, that this section shall not apply to any contracts made by any existing Company, by the terms of whose deed of settlement the whole of the profits of all the business are paid exclusively to the Life Policy-holders, and on the face of which contracts the liability of the Assured distinctly appears."

The Commercial Union is a "Mixed" Office, in which the Life Fund has always been exempt by Deed of Settlement from liability to the other departments, and it is NOW held in special trust, both by Deed of Settlement and Act of Parliament, as EXCLUSIVELY liable for Life Policies. This Fund, which exceeds £400,000, is about 75 per cent. of the Total Premiums received from the commencement upon all existing Policies, after making full provision for Annuities and Bonuses declared, that is to say, only 25 per cent. of such Premiums and of the Interest thereon has been required to meet the Death Claims, and to provide for expenses of Management and Commission. NO LIFE OFFICE POSSESSES A LARGER RESERVE IN PROPORTION TO ITS LIABILITIES.

Life Policy-holders possess, in addition, with the other contracts of the Company, the security of—

(2.) The paid-up and invested Capital of £250,000.

(3.) The general funds of the Company amounting to £550,000.

(4.) The uncalled Capital of £2,250,000 fully subscribed by a responsible body of Shareholders.

The Commercial Union being a young office, first Life Policy (issued in 1862) and never having amalgamated with any other Company is entirely free from old liabilities.

Life claims are paid by the "Commercial Union" ONE MONTH after proof of death (the usual practice is to pay Three Months after such proof), and Military Men in Civil employ, or doing ordinary duty with their Regiments in time of peace, are accepted at Civil Rates.

The "Commercial Union" has published its yearly accounts in detail from the commencement.

The Company holds a first-class position in London, as shown by the price of its shares on the London Stock Exchange.

LIFE ASSURANCES of the following description are granted:—

Endowment Assurances, payable at 50, 55, or 60, or sooner in the event of previous death.

By a Limited Number of payments, viz.: 10, 15, or 20, each payment constituting, if desired, a separate paid-up Policy for 1-10th, 1-15th or 1-20th of the sum assured.

Ordinary Short Term and whole Life Assurances.

Joint Life Assurances payable on the death of the first of two lives.

The Company also grants endowments to children, and Immediate, Deferred, and Survivorship Annuities.

THE POSITIVE SYSTEM

Offers a new and easy method of effecting Assurances on Lives for any amount, from Rs. 500 and upwards, on most advantageous terms.

The leading features are :—

1st.—Undertaking Life Assurance only, and not combining with it the more hazardous and less remunerative business of Fire and Marine Insurance.

2nd.—Charging a uniform rate of premium for all climates, and abolishing all restrictions on Foreign Residence, Travelling, &c.; the National English Life Table, constructed for the Government, being taken as the basis of the premiums charged.

3rd.—Granting the option to Assurants of paying for their Life Policies by a limited number of premiums extending over five to thirty years, instead of continuing payments during the whole of lifetime; payments ceasing after the term of years arranged for has expired, but the full sum assured being paid by the Company, without deduction, should lapse of life occur before the term of years has expired.

4th.—Participation in the Company's Profits to all the Assured alike, there being but one scale of premiums, and no advantage gained by one class of Assurants at the expense of another.

5th.—Securing to the Assured a sum of money for each premium paid, by giving a Positive Promissory Note, or fully paid-up Policy, for the proportion of the sum assured represented by the premium, free from all conditions, and payable "to bearer;" which Promissory Notes, even if future premiums are not paid, remain always in force, are payable in full at death of the Assured, or may be surrendered to the Company during his lifetime for 40 per cent. of the premiums paid.

6th.—Making a sure provision for the payment of claims by investing in Government Securities, in Trust with the Official Trustee of Bengal, all the net premiums received (four fifths of the gross premiums), and which Fund is only available for the payment of Policies, and can be used for no other purpose. Additional security to Policy-holders is afforded by the investment in Consols in England of 20 per cent. of the paid-up Capital of the Company, to provide for any extraordinary mortality amongst the Assured, and to be drawn upon only in case of the Premium Fund failing to meet claims.

7th.—Exempting sums payable under Positive Notes from Legacy Duty or other charges, neither Probate of Will, nor Letters of Administration, being necessary to legalize their payment.

THE POSITIVE

Introduces a plan of business which entirely strips Life Assurance of defective security, forfeiture of Policies, limitation of travel, and all the conditions and restrictions so long complained of. In preparing the system, the study has been to reverse the principles, and to place all power over a Life Policy in the hands of the Assured instead of vesting it in the Company. The Policies of this Company are absolutely indisputable on any ground whatever, and the Assured must receive full value for each premium paid.

For full details, Tables of Premium, &c., reference should be made to the Prospectus, which may be had on application at the Offices of the Company, 6, OLD COURT HOUSE STREET, CALCUTTA.

LIFE DEPARTMENT.

THIS CORPORATION has granted Assurances on Lives for a period exceeding ONE HUNDRED AND FIFTY YEARS, having issued its first Policy on the 7th June, 1721.

Two-thirds of the entire profits, WITHOUT ANY DEDUCTION FOR EXPENSES OF MANAGEMENT, are allotted to the Assured. This arrangement will be found to be more advantageous to the Policy-holders than an apparently larger proportion of the profits, subject to the expenses of management. The profits are declared at the end of every five years, and the share of the Policy-holders may be appropriated either in increase of the Sum Assured, or as an immediate Cash payment.

Examples of the Bonus additions made to the 31st December 1870, on Policies on which Five Annual Premiums had been paid:—

Age When Assured.			Sum Assured.			Bonus Added.		
			£	s.	d.	£	s.	d.
20	1,000	70	5	0
30	1,000	74	14	0
40	1,000	79	18	0
50	1,000	92	16	0

Assurances may also be effected without participation in profits, at reduced rates of Premium.

The Premiums have been computed from the most recent information on the subject of European mortality in India, and they will be reduced to the corresponding English rates on the return to Europe of the persons whose lives are assured.

Persons whose Assurances have been effected in Rupees, who may determine on paying their future Premiums in England, will be required to pay them at the fixed rate of Exchange of two shillings per Rupee; and in the event of any such Assurance becoming a claim payable in England, the sum assured will be paid at the same fixed rate of Exchange of two shillings per Rupee.

An allowance will be made for the surrender of Policies for the whole term of Life, on which not less than three years' Premiums have been paid.

The Agents are empowered to accept Proposals and to issue Policies.

OF THE ENTIRE NET PREMIUMS RECEIVED ON EVERY POLICY THEN IN EXISTENCE. Such a result, immediately following an allocation of profits on a large scale, on a 3 per cent. pure Premium Valuation, is regarded by the Board as eminently satisfactory.

ADVANTAGES TO INDIAN POLICY-HOLDERS.

THE results of the business of the Universal prove that the advantages to the Assured in India are greatly superior to those offered by any other Life Office, no Society with so ample a reserve for its liabilities having been able to grant so large a reduction as one-half of the Premium to Assurants on the with-profit scale.

Assurances effected for short terms at reduced rates, or for whole term of life, with or without participation in profits

Bonus to Assurants on the with-profit scale may be added to the sum assured, or may be appropriated towards reduction of premium, which reduction for thirteen years past has been at the rate of 50 per cent. per annum.

The following Tables give Examples of the operation of the reduction on Indian "with profits" Policies, upon which six annual premiums have been paid —

DYSENTERY, DIARRHŒA, CHOLERA, FEVER, AGUE, ETC.

FREEMAN'S CHLORODYNE.

THE ORIGINAL AND ONLY TRUE.

Is allowed to be the greatest discovery of the present century.

FREEMAN'S CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery. FREEMAN'S CHLORODYNE effectually checks & arrests those too often fatal diseases—Dysentery, Fever, Croup, & Ague. FREEMAN'S CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms. FREEMAN'S CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c. FREEMAN'S CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, and Asthma. FREEMAN'S CHLORODYNE rapidly relieves pain from whatever cause, allays the irritation of Fever, soothes the system under exhausting disease, and gives refreshing sleep without the production of any of the unpleasant feelings so commonly arising from the use of opiates.

The Right Honourable EARL RUSSELL communicated to the Royal College of Physicians of London, and to Mr. R. FREEMAN, the inventor, that he had received information from Acting Consul WEBB, at Manila, to the effect that the only remedy of any service in Cholera was Chlorodyne—See "Lancet," 31st December, 1864.

From Mons. BONJOUR BARTHELEMY, Delegate of the Society for the Relief of the Wounded, Founder of the Catholic Committee, Decorated with the Cross of the Convention of Geneva.

"Le Cillon pres Meung sur Loire, France, June 18th, 1873.

"I hereby attest that the Chlorodyne manufactured by RICHARD FREEMAN, Pharmacist, of London, is the best remedy against Cholera and Dysentery, and further affirm, as Director of the Anglo-American Ambulances and of French prisoners during the War from 1870 to 1871, that a large number of those under my care were attacked with Dysentery, and that by means of his Chlorodyne they were in a few days perfectly cured. It was also largely used by the Medical Staff with the same success.

("Signed) BONJOUR BARTHELEMY."

IMPORTANT CAUTION.—FOUR CHANCERY SUITS terminated in favour of FREEMAN'S ORIGINAL CHLORODYNE, and against the Proprietors of Collis Brown's Chlorodyne.

LORD CHANCELLOR SELBORNE's Judgment in "The Chlorodyne Suit," April 29th, 1873, and that of the Lord Justices of Appeal, July 23, 1873, condemned the proceedings of John Collis Brown and J. T. Davenport, and decreed them to pay all Costs, thereby confirming the decision of VICE-CHANCELLOR SIR W. PAGE WOOD (now Lord Hatherley), July 12th, 1864.—See "Times," April 29, and "British Medical Journal," May 3, 1873.

Manufactured by the Sole Inventor, RICHARD FREEMAN, PHARMACEUT, 70, Kennington Park Road, London, S.E. Sold by all Patent Medicine Dealers (except a few unscrupulous Chemists) in Bottles, 1s. 1½d.; 2-oz. 2s. 9d.; 4-oz. 4s. 6d.; 8-oz. 9s.; 10-oz. 11s.; and 20-oz. 39s. each.

CAUTION.—The extraordinary Medical Reports on the Efficacy of Chlorodyne render it of vital importance that the Public should obtain the "Genuine," which is only sold under the protection of Government, authorising a stamp bearing the words "FREEMAN'S ORIGINAL CHLORODYNE," without which none are genuine.

CHLORODYNE.

- Dr. J. Collis Browne's CHLORODYNE.** Vice-Chancellor Sir W. Page Wood stated publicly in Court that Sir Collis Browne was undoubtedly the Inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See *The Times*, July 13, 1864.
- Dr. J. Collis Browne's CHLORODYNE.** The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy to any service in Cholera was Chlorodyne. See *Lancet*, Dec. 31, 1864.
- Dr. J. Collis Browne's CHLORODYNE.** Extract from *Medical Times*, Jan. 12, 1866 — "Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."
- Dr. J. Collis Browne's CHLORODYNE** is the best and most certain remedy in COUGHS, COLDS, ASTHMA, CONSUMPTION, NEURALGIA, RHEUMATISM, &c.

- From A. MONTGOMERY, Esq., late Inspector of Hospitals, Bombay — "Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other remedies had failed."

"No one can look through Mr. Keith Johnston's Atlas without seeing that it is the best

C. LAZARUS & CO.,

(INCORPORATED WITH SHEARWOOD AND CO.)

Billiard and Bagatelle Table Manufacturers,**55, 59, 60, & 61, BENTINCK STREET, CALCUTTA.****THE NEW PATENT ELECTRIC BILLIARD MARKER.****Sole Wholesale and Retail Agents for India and the East.**

C. LAZARUS & Co. beg to draw the attention of Clubs, Messes, and the public in general to this wonderful and very ingenious adaptation of the great principle of

ELECTRICITY as applied to the noble recreation of **BILLIARDS**.

One of the greatest inconveniences attendant on this scientific game, and the one most felt by players, is the interruption to play by having continually to run to the wall marking-board to mark the score, and the liability to mistakes in so marking. By this new invention mistakes are impossible, and annoyances and inconveniences are done away with, and the interest in the game is doubled. *Every player can now mark his score without leaving the table and from the cushion he is standing near.*

The apparatus itself is so simple in construction, that an amateur can put it together in half an hour without the assistance of an Electrician. The Battery will last for months without being refilled, and when it needs to be renewed can be done at any time for a few annas.

The extreme simplicity of the **ELECTRIC MARKER** and the low charge for the same will, C. L. & Co. are satisfied, make it as popular with the Billiard-playing community of India and the East, as it has already become in England and on the Continent.

The **MARKERS** can be seen in full work, and all particulars may be ascertained from C. L. & Co., who have been appointed by the Patentees sole Agents for India and the East. They cannot therefore be procured elsewhere.

C. LAZARUS & CO., Billiard Table Manufacturers, CALCUTTA.

The new **Six-light Kerosene Duplex Burner Billiard Lamp**, to suspend from ceiling by telescopic rods, supplied with Crystal Reservoirs, Wind Guards, and Punkah Protectors, specially adapted for India, and constructed on C. LAZARUS & Co.'s principle.

These Lamps have already been supplied to numerous Clubs, Messes, and private Rooms in India, Burmah, China, Ceylon, and the Straits; and have, in every instance, proved satisfactory. They give a light equal to twelve ordinary Kerosene Lights, and from their principle of construction, the possibility of accidents is removed. The general design of these Lamps is graceful and elegant, and they form a very attractive addition to the general furniture of a Billiard Room.

C. LAZARUS & Co. have also for sale their superior **Eighteen-light Ring Burner Gas Lamps**, made on an improved principle. As these lights require no chimneys, and burn steadily under a breeze, they dispense with the old Argand Lamps, the chimneys of which continually crack, and falling on the table out the cloth.

Six-light and Eight-light Oil Lamps, on C. LAZARUS & Co.'s principle, always in Stock.

BILLIARD TABLES.

C. LAZARUS & Co., as manufacturers, would invite particular attention to their large stock of full-sized Billiard Tables. One of the chief desiderata in a Billiard Table is, to secure such an arrangement as will admit of a Ball being struck so as to attain the highest speed without its jumping. This, it need scarcely be said, depends entirely upon the arrangement of the cushions. C. L. & Co., in mentioning this fact, would state that the subject has largely occupied their attention; and after repeated experiments and close consideration, they have discovered a principle in the manufacture of cushions which answers admirably the end desired. Since the manufacture of their cushions on this new principle, C. L. & Co. have received testimonials from some of the first Clubs in India speaking to the merits of the same. To secure *truth* with *speed*,—that is to say, the maximum of speed compatible with preventing the Ball jumping—is the object which C. L. & Co. have had in view, and which at length they have successfully attained. At the same time, the cushions, it should be stated, are quite as durable, or even more durable, under the new principle of making up than under the old. With a view to the maintenance of the high character of their workmanship, C. L. & Co. have secured, for this branch of their business especially, the services of a gentleman who for many years was foreman to the eminent makers, Messrs. Borroughes and Watts, whose experience is a guarantee of the highest possible excellence in the manufacture of Billiard Tables and of everything connected with that department of their business.

THE "ALEXANDRA" BILLIARD TABLE.

C. LAZARUS & Co. beg to state that, with a view to secure for India one of the latest Home Novelties, they have made up a number of the new "Alexandra" Billiard Tables, so commonly patronised in Fashionable Circles at this time in England.

The "Alexandra" Table, or that which has received the distinguishing epithet of the "Ladies' Table," and most in favor with the fair sex, is, in every respect, adapted to develop to the fullest resources of the Game. The size of these Tables is six feet by three. The height is so regulated, and the cues and other requisites are specially arranged, as to admit of easy and graceful manipulation by a Lady.

B. B. B.

In accordance with their established practice of introducing Novelties to the Indian Public, C. LAZARUS AND Co. have pleasure in announcing that they have made arrangements to supply the later novelty in social and family amusement by importing the popular B.B.B. Tables. The peculiarity of these is, that on the one table, the three favorite Games of BILLIARD, BATTUR, and BAGATELLE may be played, thus affording a pleasing variety of amusements concentrated on a single board at little more than the cost of one. Anticipating that the demand for these Tables will be large, C. L. & Co. are prepared to supply them on very favorable terms, it being a principle of their business to furnish the best and most approved articles of every kind at the lowest rates consistent with excellence of quality and a fair trading profit.

IMPORTANT TO MESSES AND BILLIARD CLUBS,*Throughout India, China, Burmah, Ceylon and the Straights.*

Consequent on the numerous applications that C. LAZARUS & Co. have lately had from parties residing at a distance from Calcutta to have their Billiard Tables recushioned on C. L. & Co.'s new principle, and as sending the old cushions to Calcutta for that purpose is attended with great delay, occasioning much inconvenience, C. L. & Co. have been induced to keep a stock of cushions on their new principle always on hand, which can be fitted to any table, the accurate length and width of the Slate Bed only being required.

Up-country Messes, and Clubs can, by thus securing a spare set of cushions, ensure the constant use of the Table, a desideratum C. L. & Co. are satisfied they will not be slow to appreciate, as the inconvenience hitherto felt by the Table being unavailable for play during such time as the old cushions are under repair, has been admittedly very great.

SACCHARATED WHEAT PHOSPHATES.

A Dietetic Preparation, supplying an important deficiency in the ordinary Food of Invalids and Children.

CHLORODYNE

Has now obtained such universal celebrity as a remedial Agent, that it can scarcely be considered a specialty, its reputation being well known to most European practitioners.

This combination of Chloroform quickly relieves the pain and spasms of Cholera, Diarrhoea, Dysentery, and in fact all acute Nervous Pains and Chronic Coughs, and frequently very small doses will produce this beneficial result.

It may be administered on almost any fluid or on sugar

Many of the Chlorodynes of commerce are not of uniform strength, and vary in their effect. MORSON AND SON have compounded this preparation to remedy these defects.

The dose for an adult is from 10 to 20 drops (and 1 minim is equal to 2 drops); the dose may, however, be increased in special cases to 25 or even 30 minims, but it is best to commence with the lesser dose.

In Bottles 1, 2, 4, & 8 ozs.

MORSON & SON'S preparations are to be had of all Chemists & Medical Depots in India.

"We have seen a new Patent Lamp now being supplied by Messrs. Williams and Bach, 92, New Bond Street, London, which is exceeding simple in construction and gives a most brilliant light (equal to 24 sperm candles). The cottons only require changing about once a year, and the chimneys being made of an oval form, they cannot possibly break from the heat. It is fitted with protectors for use under the Punkah, and is decidedly the best Lamp for India, as it is so simple in construction that any native servant can trim it. Another novelty of this firm is converting the skins of animals and birds into lamps, which form a useful ornament for the dinner Table or Hall. These lamps are made of the actual skin of the animal."—*The Anglo-Indian Commercial Advertiser, January 1873.*

"THE PRICE OF COAL having attracted attention to all kinds of flame obtainable without its aid, Messrs. Williams and Bach, of 92, New Bond Street, have introduced an inodorous molucas fluid, which will not ignite under 120 degrees. This oil burned in their Duplex Lamp, gives a very brilliant light, and when applied to stoves for bed rooms and conservatories, gives a pleasant and beneficial heat. The lamps are easily managed, and not costly, and have been used and approved in the Exhibition."—*Standard, 17th October 1872; Observer, 20th October 1872.*
